Forty-sixth session
FIRST COMMITTEE
Agenda item 61 (e)

REVIEW AND IMPLEMENTATION OF THE CONCLUDING DOCUMENT OF THE TWELFTH SPECIAL SESSION OF THE GENERAL ASSEMBLY: NUCLEAR-ARMS FREEZE

India, Indonesia, Mexico, Myanmar and Sudan: draft resolution

Nuclear-arms freeze

The General Assembly,

Recalling that, in the Final Document of the Tenth Special Session of the General Assembly, 1/ the first special session devoted to disarmament, adopted in 1978 and unanimously and categorically reaffirmed in 1982 during the twelfth special session of the General Assembly, 2/ the second special session devoted to disarmament, the Assembly expressed deep concern over the threat to the very survival of mankind posed by the existence of nuclear weapons,

Reaffirming the goal of general and complete disarmament under effective international control,

Welcoming the new trends that have led to an improvement in the international security environment,

---

1/ Resolution S-10/2.

2/ See Official Records of the General Assembly, Twelfth Special Session, Annexes, agenda items 9 to 13, document A/S-12/32.

Welcoming also the announcements of the significant measures including unilateral steps by the United States of America and the Union of Soviet Socialist Republics, which could signal the reversal of the nuclear-arms race,

Welcoming further the Treaty between the United States of America and the Union of Soviet Socialist Republics on the Reduction and Limitation of Strategic Offensive Arms, signed on 31 July 1991, and expressing the hope that this will be followed by agreement at an early date on further cuts in strategic nuclear arsenals,

Convinced of the urgency of further negotiations for the substantial reduction and qualitative limitation of existing nuclear arms,

Considering that a nuclear-arms freeze, while not an end in itself, would constitute an effective step to prevent the qualitative improvement of existing nuclear weaponry during the period when the negotiations take place, and that at the same time would reinforce the favourable environment for the conduct of negotiations to reduce and eventually eliminate nuclear weapons,

Convinced also that the undertakings derived from the freeze can be effectively verified,

Welcoming the unilateral steps taken by the nuclear-weapon States for the cessation of the production of highly enriched uranium for nuclear weapons and shutting down reactors producing weapons-grade plutonium,

Noting with concern that all nuclear-weapon States have not so far taken any collective action in response to the call made in the relevant resolutions on the question of a nuclear-arms freeze,

Convinced that the current international situation is most conducive to nuclear disarmament,

1. Urges the United States of America and the Union of Soviet Socialist Republics, as the two major nuclear-weapon States, to reach agreement on an immediate nuclear-arms freeze, which would, inter alia, provide for a simultaneous total stoppage of any production of nuclear weapons and a complete cut-off in the production of fissionable material for weapons purposes;

2. Calls upon all nuclear-weapon States to agree, through a joint declaration, to a comprehensive nuclear-arms freeze, whose structure and scope would be the following:

(a) It would embrace:

(i) A comprehensive test ban on nuclear weapons and on their delivery vehicles;

(ii) The complete cessation of the manufacture of nuclear weapons and of their delivery vehicles;

(iii) A ban on all further deployment of nuclear weapons and of their delivery vehicles;

(iv) The complete cessation of the production of fissionable material for weapons purposes;

(b) It would be subject to appropriate and effective measures and procedures of verification;

3. Requests once again the nuclear-weapon States to submit a joint report, or separate reports, to the General Assembly, prior to the opening of its forty-seventh session, on the implementation of the present resolution;

4. Decides to include in the provisional agenda of its forty-seventh session the item entitled "Nuclear-arms freeze".
